

Vinylimpactdoors data sheet

- ~ Tough and durable lightweight construction
- ~ Ideal for dry storage, wash-down and retail stores
- ~ Allows safe, damage-free passage for personnel and equipment
- ~ Clear PVC vision panels

Vinyl Impact Door

The Vinyl Impact Door is designed for openings up to 3m(w) x 3m(H) and is the most economical solution for applications where wide loads are forced to pass through narrow, restricted openings. The tough, durable door panels are suspended from gravity hinges at the top only allowing unobstructed passage. The hinge hardware allows the door to open with impact and return gently to a closed position with a 50mm overlap.

Available in various colours the tough, reinforced vinyl fabric and standard impact plate(s) make this door ideal for pedestrians, pushcarts and light motorised traffic.

Hinge Hardware:

The gravity hinge is top-mounted only, fitted with an anti-friction and needle thrust bearing and attached to the panel by means of a support pocket in the upper portion of the door body.

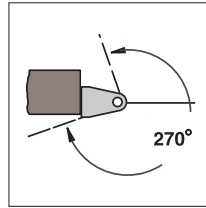

Applications:

- ~ Beer stores
- ~ Discount stores
- ~ Distribution centres
- ~ Environmental control
- ~ Fish markets
- ~ Greenhouse
- ~ Hardware stores
- ~ Home Centres
- ~ Manufacturing
- ~ Nurseries
- ~ Personnel
- ~ Produce coolers
- ~ Supermarkets
- ~ Walk-in coolers
- ~ Warehouses

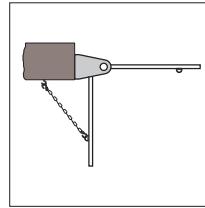

Features:

- ~ Gravity hinge
- ~ 5mm HDPE black bumpers
- ~ 3mm clear PVC vision panel(s)
- ~ 100% rot proof
- ~ UV resistant
- ~ Resistant to oil, fats, solvents, acids and salt
- ~ No bottom hinge (allows for wide load traffic)

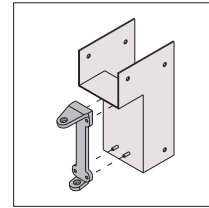

Options:

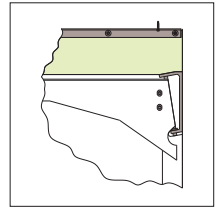

Wide angle hinge

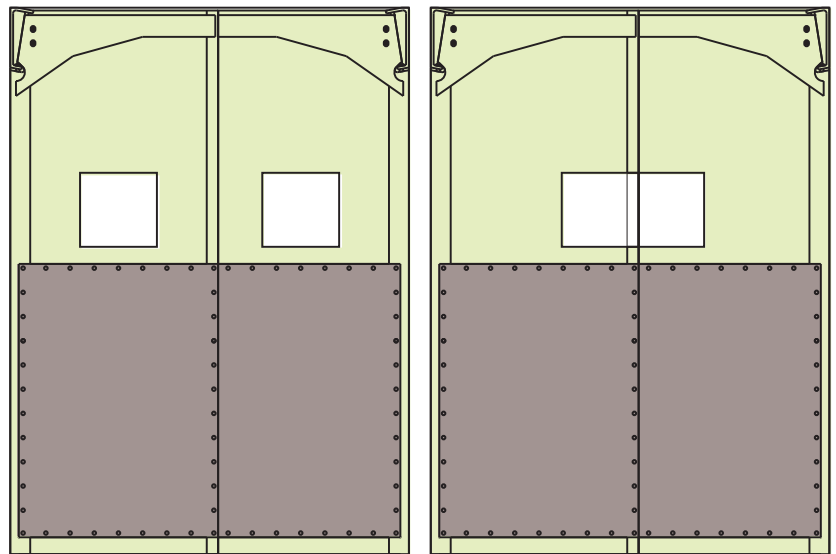

Hold open device

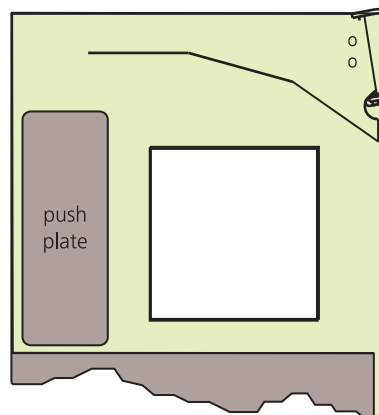

Extension 'L' bracket

Transom

Window styles
