High speed door
ASSA ABLOY HS9020GHY

Medium sized high speed door for hygienic applications

The ASSA ABLOY HS9020GHY high speed door is designed for interior applications in humid or corrosive environments, and in the food industry where hygiene demands are high. The main features of the ASSA ABLOY HS9020GHY are:
- Medium-sized, max. 4000 x 4000 mm
- Humid or Corrosive environments
- Inside usage
- Stainless steel 304 construction
- Gravity drive system
- Opening speed up to 1,2 m/s (Option: 2,0 m/s)

The ASSA ABLOY HS9020GHY offers a unique continuous side seal along the curtain in combination with the resistance of stainless steel for use in hygienic areas. It requires very little space and protects such areas against drafts, humidity, and contamination.

Exceptional reliability and smooth operation is ensured by a frequency converter driven motor which provides a fast but soft start and stop.

The reliable and versatile control unit ensures precise door set up and diagnostics and is enclosed in a robust steel control box. A customer friendly clear display gives a wide range of information like an easy to read cycle counter.

Break-away and Automatic Reset system
ASSA ABLOY high speed doors are equipped with a break-away and automatic reset system. The curtain reintroduces itself after a crash to reduce downtime and maintenance.

Completely safe
Features that make our doors completely safe.
- The soft bottom profile has no rigid parts, it gives way should an obstruction be in the line of closing.
- If the door is hit, the fabric curtain absorbs the impact and releases itself from its side guides without causing damage or being damaged itself.

Windows and vision panels
To increase the admission of daylight and visibility, the door curtain can be equipped with windows or vision panels. Windows have fixed sizes and are located on a pre-defined grid. A vision panel is always located on the full width of the door curtain.
