

STACKDOOR

Versatile Security Grille

What makes the Stackdoor Security Grille unique?

- ~ 80% Transparency
- ~ Anti-lift design with no lock required
- ~ Stacks, does not roll, therefore all lengths and shapes are possible
- ~ Designed for restricted space = very small headroom required
- ~ No headroom? It can operate upside down
- ~ Easy to install

With its versatility, transparency and latest RC2/RC3 resistance class certification, Stackdoor sets the new norm in security grilles and surpasses all its competitors.

Break-in resistance

- ~ RC2 / RC3 certified (EN 1627)
- ~ 3 to 5 x more material thickness
- ~ Cannot be lifted
- ~ Up to 15 minutes break-in delay

Design

- ~ Stackable, lightweight and strong construction
- ~ Sleek, slim design & maximum transparency
- ~ Available in any colour and stainless steel
- ~ Available in any shape (straight, round, angled)
- ~ Wide span without intermediate side guides

Ease of installation

- ~ Applicable to any façade and strong construction
- ~ Up to 20 x less installation space required
- ~ Modular mounting system
- ~ Easy constructive integration in ceiling and wall

Reliability

- ~ Highest quality components
- ~ Low energy consumption
- ~ 5 years Stackdoor warranty, in combination with maintenance plan

20 x less space required
